Moodnotes is a thought journal and mood diary. The app can be used to capture your feelings and improve your thinking habits through the implementation of CBT and positive psychology.

Track your mood and increase self-awareness of what influences it. Learn to recognize “traps” in your thinking and ways to rethink the situation.

If you happen to enter a “thinking trap,” Moodnotes will provide suggestions and useful perspectives to reduce stress and enhance well-being. Progress is viewable in the helpful “Insights” dashboard.

Moodpath

[Android](#): Free

[iPhone](#): Free

Moodpath is your pocket-sized mental health companion. Whether you are facing a rough patch or have concerns about your mental health, the app’s goal is to support you through the difficult times and guide you out the other side.

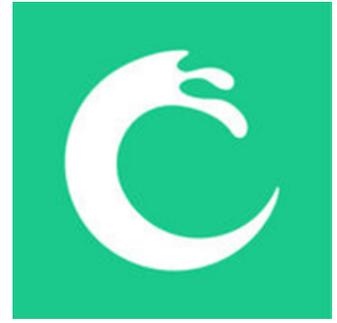

Moodpath asks daily questions in order to assess your well-being and screen for symptoms of depression. The screening progress aims to increase your awareness of your thoughts, emotions, and feelings.

After a period of 2 weeks, the app generates an electronic document that you can discuss with a healthcare professional. More than 150 videos and psychological exercises are available to help you understand your mood and strengthen your mental health.

Pacifica

[Android](#): Free

[iPhone](#): Free

Pacifica is an app with anxiety and stress in mind. It provides a toolbox to deal with daily anxiety and stress, along with a highly supportive community of like-minded individuals.

Pacifica helps you to break cycles of unhelpful thoughts, feelings, and behaviors through methods such as CBT, mindfulness meditation, mood tracking, and relaxation.

The app houses audio lessons and activities that help you to cope with stress and depression, and it sets daily challenges to help you tackle anxiety one day at a time and reach your long-term goals.

SuperBetter

[Android](#): Free

[iPhone](#): Free

SuperBetter is a game focusing on increasing resilience and the ability to remain strong, optimistic, and motivated when presented with challenging obstacles in life.

A study by the University of Pennsylvania in Philadelphia found that when people played SuperBetter for 30 days, their mood improved, symptoms of anxiety and depression decreased, and self-belief to achieve goals increased.

The app will help you to adopt new habits, improve your skills, strengthen relationships, complete meaningful projects, and achieve lifelong dreams.

Anxiety Relief Hypnosis

Anxiety Relief Hypnosis is an app suggested to help improve relaxation and reduce anxiety within just 1–3 weeks of use.

The app’s developers say that hypnosis can decrease anxious thoughts and enhance your response to relaxation, which, in turn, resets your behavior and enables an improved response to stress.

The app provides an audio session read by a certified hypnotherapist together with calming music and sounds from nature to aid relaxation. The “awaken at end” feature can be disabled to allow you to fall into restful sleep at bedtime.

Happify

[Android](#): Free

[iPhone](#): Free

Happify is a space to overcome negative thoughts and stress and build resilience. Whether you are feeling stressed, anxious, or sad, Happify helps you to regain control of your thoughts and feelings.

In fact, 86 percent of the app’s users report feeling better about their lives after 2 months of using it.

Happify employs techniques and evidence-based interventions in the areas of CBT, positive psychology, and mindfulness to help you break old and unhealthy patterns and form new, healthful habits.

The app offers activities and games to improve your life satisfaction and ability to fight negativity. Your emotional well-being is calculated as a happiness score that you can improve upon each week.
